

# 2023 Annual Report

[www.2ftprosthetics.org](http://www.2ftprosthetics.org) | [info@2ftprosthetics.org](mailto:info@2ftprosthetics.org)

# OUR MISSION

2ft Prosthetics helps restore **dignity** and **self-confidence** to **underserved amputees** in developing countries through the production and distribution of **quality** and **affordable** prosthetic legs and **establishment** of prosthetic clinics.

---

# THE PROBLEM

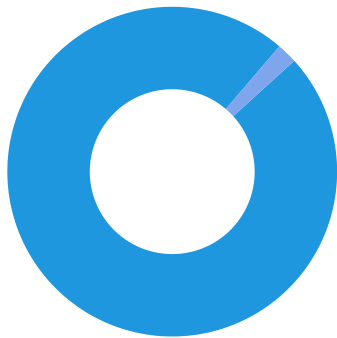

It is estimated that every year there are over **1 million** new amputations globally.

**80%**

of new amputees are from developing countries

**98%**

of amputees in developing countries do not have access to prostheses due to high costs and/or lack of prosthetic services

Average cost of acquiring prosthetic leg

**\$8,000**

Average yearly income for people in developing nations

**\$300**

# OUR APPROACH

## Innovation

We collaborate with the BYU 2ft Prosthetics engineering club at Brigham Young University and Engineering World Health at Cornell University to conduct innovative research and design of prosthetic limbs. We are constantly trying to improve our model to develop prosthetics that are high-quality, but practical for those in low-resource settings.

## Distribution of prosthetic limbs

Each year we conduct projects in collaboration with local clinics to fit amputees with prosthetic legs who could not afford them otherwise. We also help amputees around the world who reach out to us directly by connecting them with our partner clinics and sending prosthetic components as needed.

## Supporting local prosthetic clinics

We help establish new clinics or expand the capacity of existing clinics through trainings and equipment donations.

# OUR IMPACT

Since 2009

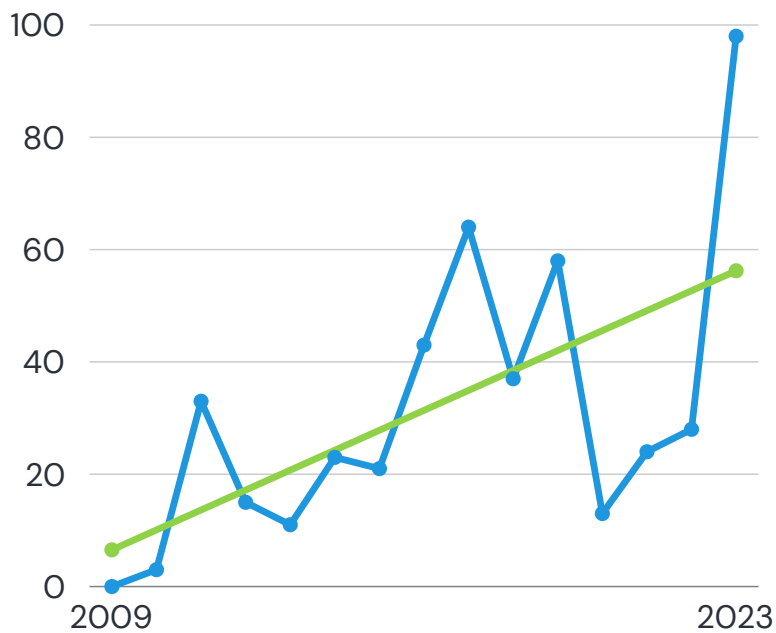

**433**  
Legs Given

**408**  
People Served

## Number of Amputees Helped Per Year

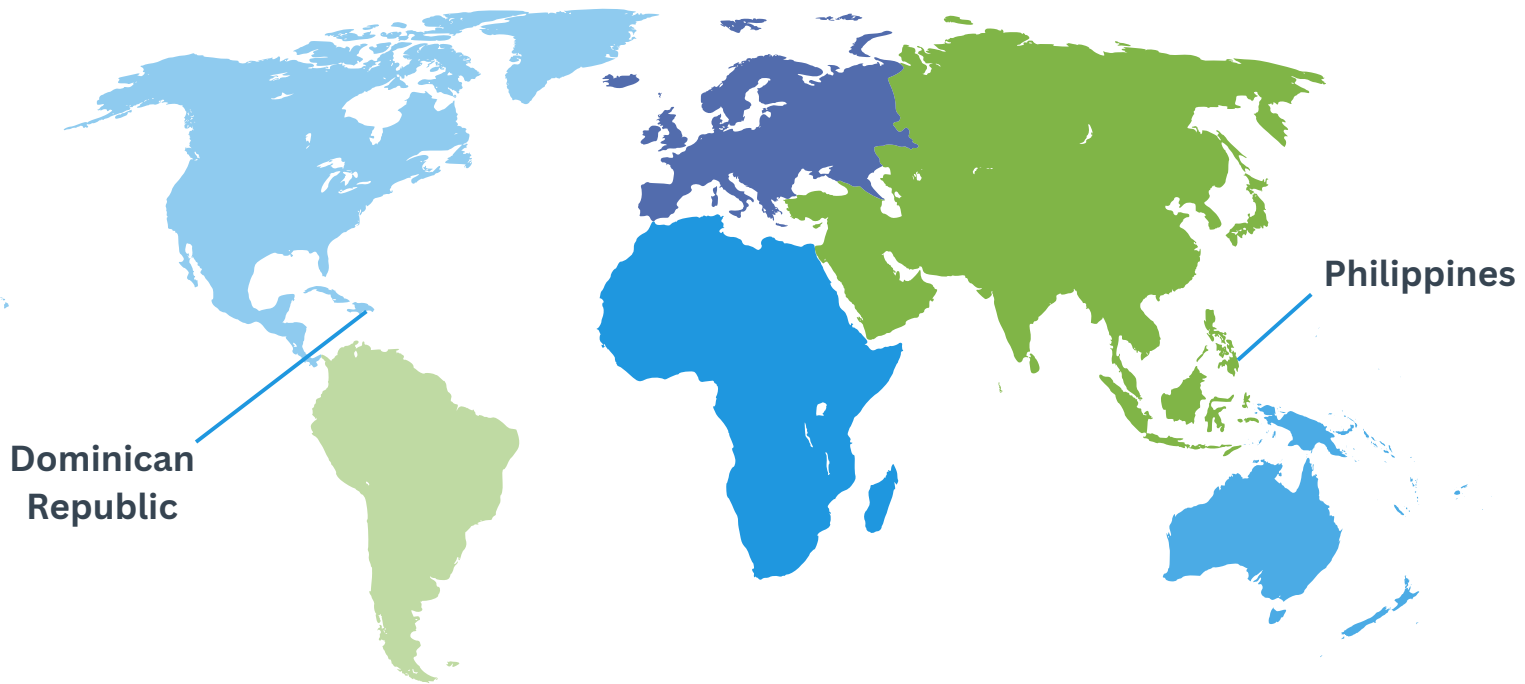

On average, the number of people we are able to help has increased **3.5x** each year, with 2023 being a record high!

**11** Clinics Visited

**30** Partner Clinics

# 2023 PROJECTS

## PROJECTS

## DETAILS

## OUTCOME

### Santo Domingo, Dominican Republic

August 12–27: We returned to ADR in Santo Domingo for our biggest project yet! Along with ADR employees and students from BYU and Cornell, we spent 2 weeks fitting over 60 patients. We hope to continue serving more and more people through this annual collaboration.

- **63 patients** fit with prosthetic legs

### Cebu City, Philippines

October 5–14: We began an exciting new project in Cebu City, Philippines. This will be an ongoing project over the next few years to establish a new clinic in the area, working alongside organizations like CharityVision, Mahubuay Deseret, DSWD AVRC, ArtLeg, and others.

- Screened **70 patients**, fit **35** with prosthetic legs, and plan to finish helping all of them in 2024
- Groundwork laid for a **new prosthetic clinic**

In 2023,  
**81**  
 Volunteers

Gave more than...  
**3,318**  
 Hours

# FINANCIAL REPORT

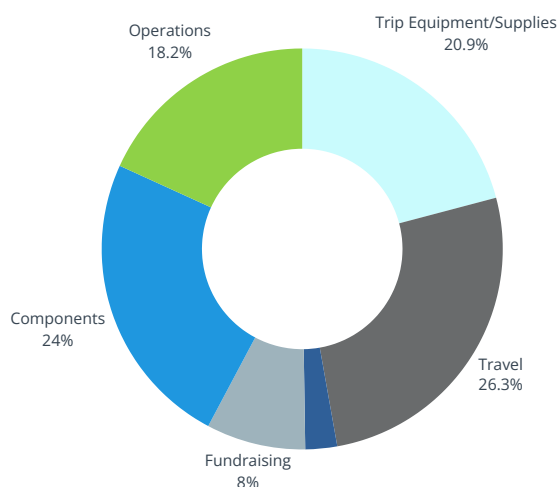

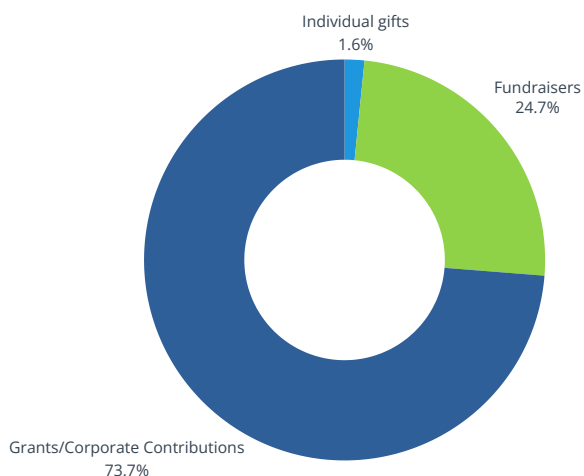

Jan-Dec 2023

**\$39,664**

Total Financial Donations Received

**\$27,131**

Total Expenses

## 2023 Component Donations

We are grateful for the prosthetic donations we received in 2023.

					
Liners	Socks	Knees	Pylons	Feet	Adaptors
14	70	41	102	91	558

Estimated Total Value:

**\$32,396**

# THANK YOU

To all of the donors, volunteers, and partners that make our work possible.
